[America's Highway: Oral Histories of Route 66](#)

Jay Crim and Shekar Davarya spent the summer of 2002 driving across the country on Route 66, collecting interviews with the people who live, work and travel on the old road. The audio, video and images on this map are the result of that summer, and offer a glimpse into what life was like on the now-decommissioned highway and what remains for those who still travel the road. The America's Highway project was intended to create both a history lesson on America of the past as well as a travel guide for visitors on 66 today. The work was supervised by Professor Bill Leslie, History of Science Department and Mike Reese, Center for Educational Resources, The Johns Hopkins University.
